The following work was done by the N. Y. A., the town paying for foreman, special labor, and material:

Milton—painted steel bridge, painted several hundred feet of highway fences, cleaned and painted grader.

Town Beach—cleared, leveled and rolled tract of land for ball grounds and other purposes, cleaned picnic grounds and beach, built two rest rooms according to state specifications.

Milton Mills—painted all highway fences, built 1,050 feet of cable fence.

REPORT OF CHIEF ENGINEER OF FIRE DEPARTMENT

To the Selectmen and Voters of the Town of Milton, N. H.:

In rendering my report for the year ending January 31, 1941, here are the calls the department has answered:

Twenty-one for chimney fires.

Two for grass fires.

Four for forest fires.

Two for car fires.

Three where buildings were involved, and answered two calls for assistance from Milton Mills.

We had our first call for our inhalator and it proved to be a valuable investment.

The new truck which we received last fall has proven very satisfactory to date in every way.

New doors have been installed in the fire station to accommodate the new truck, and the interior has been changed accordingly.

The amount of property involved in fires is as follows:

Value on buildings,	$100,000 00
Insurance,	
Losses paid,	50 00
Value of contents,	120,000 00
Insurance,	
Losses paid,	1,060 00
Other losses,	15 00

I wish at this time to thank the people and selectmen of the town for their assistance and splendid cooperation during the past year.

Respectfully submitted,

CHAS. W. WILSON,
Chief.

Due salaries, estimate,	$40 00	
Equipment,	3 00	
Gas and oil,	3 80	
		$46 80
Net cash assets,		$219 41

The commissioners feel that this sum should be held in reserve to meet any unforeseen expenses such as necessary repairs to truck in case of accident, or an unavoidable increase in pay roll.

The truck is now equipped with all necessary small hose, and 700 feet of new 2½-inch hose. We recommend the purchase this year of at least 150 feet of new 2½-inch hose to replace part of the 550 feet of

old hose on the truck. Also, the commissioners recommend that some funds be voted for the purchase of materials for the construction of water holes in the outlying parts of the district.

WILLIAM E. WOODBURY,
E. R. STONE,
Commissioners.

REPORT OF THE MILTON MILLS FIRE CHIEF

The department this year answered two chimney fires, one brush fire, and two calls for aid from Acton, Maine. One of these calls was a brush fire and one a building.

Repairs were made to the underpinning of the engine house and a new hose drying rack built. We have now 1,200 feet of 2½-inch hose on the truck. Seven hundred feet of this is new. One hundred feet was bought in 1921, 100 feet in 1926, 50 feet in 1932, and 250 feet at an unknown date. I urgently ask that this hose bought in 1921 and 1926 be replaced this year with dependable hose in order to protect the out of town houses.

Respectfully,

VERNEY C. SPRAGUE,
Chief.

Milton, N. H., February 5, 1941.

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens of Milton:

I respectfully submit my seventh annual report. The statistics are for the school year ending June, 1940. The report of the School Nurse follows that of the Superintendent and Headmaster of Nute High School. The record for last year was good and receives no further comment.

The Teneriffe Sports Club has again provided skating facilities at the Grammar School and the pond is covered with pupils at every opportunity. This association deserves public recognition for its good work.

During the summer Mrs. Rosamond Pike moved from Milton Mills and resigned to take another position near her new home. Miss Carolyn Eaton, of Salisbury,

Mass., a graduate of Salem Teachers' College, was secured to take the vacant position. Miss Mary Willard, teacher of Grade Four at Milton Village, asked for a leave of absence to secure her degree from Keene Teachers' College. She will return February third. Mrs. Clara Roberts Henderson of So. Berwick, Maine, a former teacher in Rollinsford under my supervision, was engaged to fill the position for the half year. Mrs. Henderson was a substitute of wide experience who could fill any elementary position. She was loved by both teachers and pupils in Milton and gloom was cast over the Christmas exercises by her untimely and tragic death in an automobile accident just before the Christmas vacation. Mrs. Ellen Tuttle, formerly principal of the school at Gonic, and a Rochester substitute teacher, was loaned to us by Superintendent Arthur Rollins.

Last spring a series of sixteen lectures was given by Dr. Payson Smith of Harvard. The meetings were held at the Portsmouth Junior High School and almost all of the Milton teachers attended them. There were more teachers present from my Union than from any other. This fall another course of sixteen lectures was given at Dover High School by Dr. Linwood Chase of Boston University and Miss Eaton and Mrs. Thurston from Milton Mills attended faithfully. Such a good professional spirit on the part of the teachers deserves commendation. Your superintendent also attended both lecture series. He attended the meeting of the National Association of School Administrators held at Cleveland in February, 1940, and plans to attend a similar meeting at Atlantic City in 1941.

The testing program we are carrying on this year is the same as last. We are now giving the Metropolitan Achievement tests to all grades above the third in the middle of the year and the Standard Graduation tests in June to the eighth grade. Your superintendent

has personally tested, or scaled, the handwriting of all the pupils in his supervisory union beginning with the third grade and continuing through the eighth. While better results might be secured if more time was devoted to the subject there was not a paper marked as ineligible. The results were better than the superintendent expected.

In September the Town of Lebanon asked permission to send to us the pupils living within easy access of the Milton Grammar School. Twenty pupils enrolled at first and now we have twenty-five. The only room to become somewhat crowded was that of Principal Newall, in grades seven and eight. Next year, if the Lebanon pupils continue to come this room will probably not be quite so crowded. We are collecting twenty-five dollars a week in tuitions and I recommend to the District that this school be reorganized on the departmental basis and another teacher be employed. If possible a teacher who could teach music in all the grades. The additional cost would be very little more than the tuitions received and the pupils would benefit greatly. I hope that the time will soon come when we can employ another teacher at Nute High School and then give to grades seven and eight the Manual Training and Domestic Arts using the equipment and teachers at the High School. There must be more vocational work done in our schools if we are going to educate all pupils through the twelve grades at public expense.

Regretfully we released Mr. Norman Collishaw, the teacher of Practical Arts at Nute High School. The good work that he did in establishing the General Shop for boys and in making available a good room in the basement of the High School for the classes in Home Economics, received such notice that he was offered more salary than Nute High School could afford to pay. We were fortunate to secure the services of Mr. Luther

M. Preston of Auburn, N. H., a graduate of Keene Teachers' College, to continue the good work.

Mrs. Pauline Card, who taught the Home Economics, has been replaced by Miss Lois E. Steere, an experienced teacher.

Miss Goodwin and Headmaster Anderson of the Nute High School faculty both took summer school courses in 1940. For a more detailed account of the work of Nute High School see the Report of the Headmaster.

The Oscar Moorehouse American Legion Medals were awarded to Grace Horn and Robert Kimball at the graduation exercises at Milton Grammar School in June.

In conclusion we wish to thank those many parents who have visited their schools, especially during Education Week, when a special evening session was held.

The School Board have given freely of their time to help, encourage and advise.

Respectfully submitted,

HOWARD L. WINSLOW.

REPORT OF THE HEADMASTER OF NUTE HIGH SCHOOL

To the Superintendent of Schools and Members of the Board of Trustees:

I hereby submit my second annual report of the Nute High School which opened its fiftieth year September 3, 1940, with an enrollment of 98 pupils. Transfers and withdrawals have reduced the membership to 94 pupils divided as follows: Post Graduate, 1; seniors, 19; juniors, 16; sophomores, 24; freshmen, 34. The membership at this date shows an increase of 6 pupils over last year. Eight pupils dropped out of school during the summer for the following reasons: to work, 3; moved out of town, 2; married, 1; transferred, 2.

The attendance record was excellent up to the middle of January, 1941, with an average of about 96%. During the week of January 13th, due to an epidemic of severe colds which was prevalent throughout the state, the attendance dropped to nearly 50%. As a matter of precaution the school was closed for one week.

New equipment obtained this year includes the following: for Home Economics, two electrical stoves, one oil stove, one refrigerator, full cooking equipment for three kitchens, including dishes, pots and pans, complete dinner service for eight, one studio couch and chair, and luncheon equipment for 40 pupils; for Practical Mechanics, one machine lathe with complete equipment, one forge, one anvil, machinists' vises, complete set of hand tools and other apparatus necessary for use in all projects in Practical Mechanics; for the commercial courses, four typewriters; for Chemistry, new scales, a supply of chemicals, and Philgas; for Main Room, a three-drawer file case. New text books were

purchased for the following courses: The Family, Foods and Nutrition, Latin II, Trigonometry, Office Practice, and Stenography.

There have been two changes in the teaching staff. Miss Lois Steere, who teaches Home Economics, replaced Mrs. Pauline Card, and Mr. Luther Preston, who teaches Trades and Industries, replaced Mr. Norman Collishaw. The enrollment in the two courses taught by the above mentioned teachers has greatly increased.

The approved program of studies for this year is the same as last year except that the following alternates are substituted: Chemistry for Physics, Trigonometry and Advanced Mathematics for Geometry, Sociology for Economic Problems, The Family for the Home, Practical Mechanics for Building Construction, French I for French II, Latin II for Latin I, and Foods and Nutrition for Textiles and Clothing. Commercial Geography was dropped as a sophomore subject and Junior Business Training put in its place. It is still my belief that the holding power of our school is exceptionally good due to the innovation of the two new courses, Home Economics and Trades and Industries. The concensus of opinion indicates that these courses and their allied subjects are meeting the needs and the desires of our community; this being so, more emphasis and time should be placed on these courses. Lack of adequate and interesting courses within the ability and interests of our pupils cannot be said to be the cause of the dropping out of four pupils this year.

We are again this year taking advantage of the help offered by the National Youth Administration to aid needy pupils in school. Four pupils are receiving aid for work which is educational and worthwhile. One is running the school store, two are continuing the library project started last year, and one is helping in the proper maintenance and appearance of our building and grounds.

The results of the State tests are gratifying, showing that we are above the state average in two tests and below the average in only one test.

We are continuing our daily 30-minute activities period which has proven so successful. On Mondays three fundamentals classes for those who test in the lowest quartile in Place Geography, Arithmetic and Reading are held. Attendance in these classes is checked on our periodical report to the parents. The other days of the week are devoted each to four different extra-curricula activities, such as clubs and games. Out of this program has grown a decided need for two educational activities which might well become a part of the regular program of studies: first, a regular music course; second, a physical education program for all. We in the school realize that these programs are expensive; however, the benefits to be derived are immeasurable and we are eager to do all we can to have them introduced.

During the summer vacation the following improvements were made in the school: a new ceiling in the Main Room; a complete redecoration of the Main Room, new toilets, urinals, and sink in the boys' toilet; new metal edging for the treads of the main stairway; and the connection to the town system for our water supply.

In the course of the year thus far the boys in Practical Mechanics have remodeled the basement so as to include a forge room, a section for Automotive Shop, and a shower room. A concrete ramp to be used to drive in automobiles is in the process of construction.

Since December the girls in the Home Economics Family class have been serving a one-hot-dish and hot cocoa lunch at noontime for those who stay in school during the noon recess. At present this lunch supplements what is brought from home but should it become the desire of the majority, a complete lunch could be served. The food is served at cost—at present each

hot dish costs 5c and cocoa 2c. This class plans the lunches, purchases the supplies, does the bookkeeping, serves the lunches, and washes the dishes. Many who are unable to pay cash for their lunches do so by bringing supplies from home, such as milk, eggs, vegetables, etc. We have made application for free supplies from the Surplus Marketing Administration, and should they be obtained, a more bountiful lunch can be served without any appreciable increase in cost to the pupils.

Our shop is well-equipped for woodwork and metal work. Should the need arise it would be possible to set up an adult course to be held evenings or during the summer. This might be of the Defense Program nature or as a regular adult class. Nor are our facilities limited to the men; there are possibilities for adult classes in homemaking, sewing, and cooking.

The numerous and helpful suggestions of our Superintendent, Howard L. Winslow, have been a decided benefit to our school and the staff. Thanks is also due various members of the New Hampshire State Department of Education for their constructive ideas. The help and the especially fine cooperation of the members of the board of trustees is greatly appreciated.

Your headmaster and teachers feel that in our small way we are meeting the goals of education in a democracy during these trying days in an upset world but we also realize that whatever success we attain depends upon the friendliness and cooperation of the parents of our pupils and the people in our town. It is with a confidence of their support and a desire to maintain the prevailing fine spirit that we work. We sincerely solicit your evaluations of our work and cordially invite you to visit us at any time.

Respectfully and sincerely submitted,

ROBERT R. ANDERSON,
Headmaster.

REPORT OF SCHOOL NURSE IN MILTON

1939-1940

To the School Board and Citizens of Milton:

I have the privilege of submitting my seventh annual school report for the school year, September, 1939 to June, 1940.

	Defects found	Corrections
Defective vision	20	17
Defective hearing	6	2
Defective teeth	152	87
Abnormal tonsils	48	4
Adenoids	14	1

Cases of communicable diseases

Chicken pox	2
Measles	25
Whooping cough,	41

The absences this year have been many and were due mostly to either whooping cough or measles, with the usual colds and stomach upsets. Communicable diseases could be less prevalent with more co-operation at home. Colds seem to be due mostly to poor resistance rather than to tonsils; stomach upsets to diet and poor hygiene. I find also that a too late bed-time contributes much to illness in our school children.

Milk has been served as usual through the winter months, the Milton Woman's Club sponsoring this project. About 50 bottles were consumed daily.

Dental Clinic was again a very worthwhile project. Fifty of the sixty pupils treated have attended previous clinics. I wish more parents would take advantage of this worthwhile project for excellent work is done and the prices are extremely low.

A Sperry Stop Watch for testing hearing was purchased by your nurse and many children have been tested with it.

Meetings attended this year include two meetings of the Graduate Nurses' Association of New Hampshire, one with State Board of Health Staff Nurses' and one County Teachers' Meeting. Also last February a two-day Institute on Syphilis held in the State House, Concord, was attended.

Again, this year, I would like to thank our superintendent, school board, teachers and parents for their support and cooperation.

Respectfully submitted,

MARION NORTHWAY, R. N.,
School Nurse.
A. R. C. Public Health Nurse.
